

TRINITY AUTO ENGINEERING (P) LTD

Trinity Auto Engineering (p) Limited was established in 1991 & it is one of the leading Manufacturer, Exporter, Trader and Supplier of automotive & industrial applications such as Moulded Rubber Parts, Automotive Silent Block Bushes, Stabilizer Bushes and many more. Apart from this, we also offer anti vibration mountings, rubber to metal-bonded bushes, isolator mountings, engine mountings, rubber bushes, metal bonded bushes, rubber bushing, rubber oil seals, rubber o rings, suspension bush, silent block bushes, rubber gaskets, torque rod bush, anti vibration mounting, anti vibration mounts, cushion foot mountings, rubber bellows, rubber oil seals, rubber o rings, suspension bush, rubber buffers, suspension link, stabilizer bushes. In the field of anti-vibration technology.

The company manufactures customer-specific innovative products of major industry sectors such as automotive, general engine & machine builders, railway vehicle industry and aircraft industry. The base for our success are an application-oriented product range, high-quality products as well as dedication to innovation and individual solutions. We are also exporting our products all over the globe.

Our mentor Mr. Anil Ambardekar (Director) has supported us in providing the most elegant and quality manufacturer for Rubber Components that reduce or eliminate unwanted vibration and noise in all kinds of Automotive & Industrial Applications. Today TRINITY has global clientele base. With the existence of efficient production facilities, process control, quality orientated work flows and reliable service are the basis for the continuous growth of the company

R G BRONZE MFG. COMPANY PVT. LIMITED

R G BRONZE MFG. COMPANY PVT. LIMITED, was established in the year 1982 to serve the Indian OEM industries by manufacturing and supplying Sleeve Bearings, Graphite / Polymer Bushings, Thrust Washers and Bimetal Strips of excellent quality. RGB products have been accepted and regularly used by OEM of Automotive, Auto Ancillary, Tractor Industries, Two Wheeler, Earth Moving / Construction Equipment Manufacturers, Aircraft Industry, Defence Sector, FHP Motor Manufacturers, Refrigeration & Air-Conditioning CompressorsManufacturers and other Industries in INDIA and Overseas.

The Company is very proud of handling the requirements of several major Original Equipment Manufacturers Globally, catering to their exclusive requirements as an On-line “Quality Assured” Supplier and as Single Vendor. RGB’s quality improvement is a never- ending journey and has been our endeavour to serve customers by offering the best quality products and services. Streamlining the operations to global standards, RGB offers excellent quality products and services from “**State-of-Art**” facility, achieving “**COMPLETE CUSTOMERSATISFACTION**”.

Range of Products: **Sleeve Bearings, Bushings, Thrust Washers, Polymer Bushings, Thick wall Bushings and Bimetal Strips**

Countries of Export: **CANADA, CHINA, GERMANY, ITALY, IRAN, KOREA, POLAND, SINGAPORE, SWEEDEN, THAILAND, TAIWAN, U.A.E, U.K. and U.S.A.**

Quality Certification: **IATF: 16949 – 2016, ISO: 9001 – 2015**

A.S.K. HOMETEX

- Nature of Business** : Manufacturing & Exporting Home textile made-ups
- About Us** : In 2019 **A.S.K.HOMETEX** was established as manufacturer and exporter of Home textiles and Home furnishing products. For the past 5 years, we have designed, Manufactured and exported home textiles of outstanding quality for global clients. Over the last 5 years, we have greatly enhanced our production capabilities in home textiles. Our last year turn over around 5 Million US dollars.
- Experience in this Field** : Mr. R. Jeganathan who started **A.S.K.HOMETEX** has over all experience in this Field around 25 years
- Quality Policy** : Our responsibility starts from raw material to the end of the product to ensure the best quality and value for money. In every production stage we will assure the best quality by doing QC and lab tests with our in-house lab, pre-production sample approvals, inspections, etc.,
- Major Market** : Australia, New Zealand, USA, South Africa, Italy & Poland
- Major Client** : Kmart Australia & New Zealand
- Other Customer** : Direct Sourcing Corp- US, Mr.Price- South Africa, LPP- Poland , Exclama- Italy, Pem America- USA
- Annual Export value** : \$ 4.7 million
- Major Product Strength** : Kitchen Linen, Table Linen, Outdoor & Living room linens
- Production capacity**
- ❖ Fabric - Able to Weave more than 2,00,000Mtrs of grey fabric in variant width in a month
 - ❖ Printing & Dyeing - Able to do the Fabric Dyeing 75,000Mtrs & Printing 80,000Mtrs in a month
 - ❖ Weaving - 1,85,000Pcs of Terry Towels & Waffle Towels
 - ❖ Finished Goods - 30,00,000 units/ month
 - ❖ Stitching - We have More than 200+ Sewing Machines and We can stitch 3,50,000Pcs in Per month. Also, we have an automatic towel-side hemming machine.
- Certification** : In-house Lab and Automatic Towel Hemming machines are our strength
: SA 8000:2014. CE – UK/CA, OEKO-TEX, GOTS, GRS/RCS, BCI Cotton.

SPRAYKING LTD

Sprayking Limited, a Public Share Holding Company which is the only and ever First Listed Company is SME Segment of Bombay Stock Exchange dealing with 100% Brass Metal as processing material.

Backed by 41 years experience track record of promoters, Sprayking Limited carries out all the process from Scrap melting to Finished products within one Roof of Factory enables our Customer to meet their demand within short duration of time with Consistent Quality and Quantity.

CAPABILITIES

Factory Area	5500 Square meter Built up Area
Work Force	More than 100 Employees
Foundry	Induction Melting Capacity 1000Kg / Heat
Extrusion Plant	Press Capacity 700 Ton for Extruding Brass Solid & Hollow Rods, Profile & Sections
Forging Press	Friction Screw, Power, Horizontal, Continuous Forging Press of latest generation
Production Workshop	More than 150 machines includes VMC, CNC, Automatic Cam Lathes, Semi-automatic Lathes, Rotary Transfer, SPM, Threading, Slotting, Boring, Milling, Vertical Drilling, Trimming Machines
Tool Room	In house Tool room for manufacturing of Forging Dies, Production Tools & Fixtures
Polishing	Sand Blasting, Shot Blasting, Vibro Machines and Deburring Machines
Laboratory	Spectro Machine for Material Analysis, Hardness Tester, Surface Tester
Inspection Room & Testing Department	Vernier, Micrometer, Plug & Pin Gauge, Thread Gauge, Ring Gauge, Depth Gauge, Snap Gauge, Torque tester, Hydro Pressure Test machines enables us to supply product with Zero Defect
Packing Department	One Piece Packing, Automatic and Manual Sealing & Strapping Machines

Processing Material	DZR Brass, LEAD FREE Brass, Forging Brass, DCB Brass, Free Machining Brass & other Grades
---------------------	---

Product Range	Pipe & Plumbing Fittings, Brass Compression Fittings, Brass Ball Valves, Brass Forged Components, Turning Components, Agricultural Sprayer parts & Garden Fittings, Sanitary Fittings, Brass Fasteners, LEAD FREE Brass Fittings, Flare & Inverted Flare Fittings, Water Meter Fittings, Lubrication Fittings, Gas Fittings, HVAC & Refrigeration Fittings, Pneumatic & Hydraulic Fittings, Air Brake DOT Fittings, Brass Extruded Rods & Copper alloy Ingots
---------------	---

Sprayking Limited obtained **ISO 9001:2015** a quality certification confirmed by TUV NORD, a prestigious certification company & SABS Certified quality since 2014.

Currently our Annual Turnover is more than 300 Million INR in 2018-19 and targeting & working with full enthusiasm to cross 1000 Million INR in 2025.

ALCONE TEXENGINEERING PRIVATE LTD

Alcone Tex Engineering Private Limited is India's leading manufacturer of yarn twisting, doubling, covering, and rewinding machines. Founded with a commitment to excellence and innovation, Alcone Tex Engineering has established itself as a premier provider of advanced textile machinery solutions. Our expertise and dedication have made us a trusted name in the textile industry, known for delivering high-performance, reliable, and efficient machines.

Mission: Our mission is to empower the textile industry with top-of-the-line machinery for yarn twisting, doubling, covering, and rewinding. We aim to enhance productivity, ensure sustainability, and drive economic growth by providing innovative solutions tailored to our customers' needs.

Vision: To be the global leader in textile machinery manufacturing, recognized for our innovation, quality, and customer-centric approach, while contributing to the advancement and sustainability of the textile industry.

Core Values:

- **Innovation:** Continuously advancing our technology and processes to stay ahead in the textile machinery industry.
- **Quality:** Delivering products that meet the highest standards of performance, reliability, and durability.
- **Customer Focus:** Prioritizing our customers' needs and providing customized solutions and exceptional support.
- **Sustainability:** Promoting environmentally friendly practices and reducing the ecological footprint of our operations.
- **Integrity:** Upholding ethical standards and fostering trust and long-term relationships with all our stakeholders.

Products and Services:

1. **Yarn Twisting Machines:**
 - High-speed twisting machines
 - Precision twisting solutions
2. **Yarn Doubling Machines:**
 - Advanced doubling technology for enhanced yarn strength and quality
3. **Yarn Covering Machines:**
 - State-of-the-art covering machines for diverse applications
4. **Yarn Rewinding Machines:**
 - Efficient rewinding solutions for consistent yarn quality
5. **Customized Solutions:**
 - Tailored machinery to meet specific customer requirements
6. **Technical Support and Services:**
 - Comprehensive installation and maintenance services
 - Expert technical consultancy
 - Training and development programs for operators and technicians

Research and Development: Innovation is the cornerstone of Alcone Tex Engineering. Our dedicated R&D team is constantly exploring new technologies and improving existing ones to ensure our products are at the forefront of the industry. By collaborating with leading research institutions and industry experts, we continuously enhance our machinery and contribute to the advancement of textile technology.

Global Presence: Alcone Tex Engineering has a robust presence in key markets across India and around the world. Our extensive network of clients and partners allows us to understand diverse market needs and deliver customized solutions that cater to specific regional requirements.

Corporate Social Responsibility: We are committed to making a positive impact on society through our CSR initiatives. Our efforts focus on education, skill development, and environmental conservation, aiming to uplift communities and promote sustainable development.

Contact Information:

- **Headquarters:** [Insert Address]
- **Phone:** [Insert Phone Number]
- **Email:** [Insert Email Address]
- **Website:** [Insert Website URL]

Leadership: Alcone Tex Engineering is guided by a team of seasoned professionals with extensive knowledge and experience in the textile industry. Our leadership team is dedicated to driving innovation, maintaining operational excellence, and fostering a culture of collaboration and continuous improvement.

Conclusion: Alcone Tex Engineering Private Limited is a pioneer in the manufacturing of yarn twisting, doubling, covering, and rewinding machines. Our unwavering commitment to quality, innovation, and customer satisfaction has positioned us as a leader in the textile machinery sector. We strive to shape the future of the textile industry through our advanced solutions and sustainable practices, contributing to its growth and development.

AARYA FASHIONS

Aarya fashions is renowned GRS/SEDEX 4Pillar compliant exporter/manufacturer of Imitation Jewellery and handmade bags.

Aarya Fashions, Noida based exporter are in the business since 2006 and exporting costume fashion jewelry includes Beaded jewellery, Earrings, Headband, scrunchies, bracelets, Necklace, anklets, etc. Company works on sustainability and make products from eco-friendly/recycle material which is very much in demand across the globe.

The Owner/CEO of Company is Khushboo Singh and she is in this trade from last 17 years. Her proficiency in jewelry designing and within the price target of client makes her unique.

Her vision is to take Indian Handicrafts to different parts of the world.

NIRMAN ENGINEERING

Nirman engg. is an ISO 9001-2015 certified unit from 2004 and is established in 1980. Nirman Engg. is a family owned partnership firm. We supply precision engg. Components to many reputed companies. We presently supply precision Machine Spindle Parts, SS holders for Rupture Disc, Tool room components, Compressor parts like Cylinder, Piston, Brg. Hsg., Covers etc. We have developed and supplied (Indirect Export) 1000 nos. of Y shaped non return Ball Valve. Most of the parts we supply with material like SS316, CI casting, Investment Casting. We make Jigs & Fixtures, & Jig Bushes.

From March 2022 we have obtained export licence and we are exporting Holders for Rupture Disc, A product of USA based co.

The undersigned Partner Mr. Pitre has experience of 4 years in Pump manufacturing Unit. And running this unit from 1980. We also developed and supplied successfully import substitute **fuel feed pump for Boiler for about 10 years.**

Our factory building is 4000 sq. ft. built up & 1500 sq. ft. open land of our own.

We have CNC Turning centres, VMC's, Band saw, Marking Machine, Centre lathes, Milling machines, Grinding Machines, Drilling machines etc.

Our inspection facility is very good. Apart from wide range of verniers, micrometers & bore dial gauges we have 2D Ht Master (equivalent to Trimos) on which we can measure od, id, groove dia & width, step lengths, PCD etc. within an accuracy of 0.01 mm.

Our notable achievement of 44 years is excellent relations with all customers. We have never failed in development and supply of any part to our customers. We have helped many customers in improving design of parts.

We are interested in expanding our business by adding new customers.

RAMATHERM PVT LTD

Our company was established in the year 2009 with a limited number of spare parts that are used in induction furnaces. As time passes we have gradually grown up and now we are manufacturing New Induction Furnace that are used in remelting of ferrous and ferrous material. We are the leading manufacturer in the eastern region.

We have a team of engineers that are looking in various fields like sales, shop floor, servicing and manufacturing and technical support.

We are doing inhouse manufacturing of Electronic panel, DC Choke, Coil assembly of all sizes, Change over Switches, Capacitor rack, DM unit, Coil cradle assembly, Water cooled cable, Hydraulic power pack etc.

PRODUCTS: MANUFACTURER OF INDUCTION FURNACE RANGING FROM 5 KG TO 40 MT.

We exporting our product to the following countries:

1. Bangladesh
2. Iran
3. Mauritius etc.

STAR LABS

STAR LABS has been a leader in the industry since 2015. We began our journey by exporting from our domestic plant, and with rapid success in the international export market, we have significantly expanded our operations

Our Growth Journey

- **2015:** Began exporting from our domestic plant.
- **Expansion:** Moved to a larger facility of 45,000 sq. ft. in Ambala, India.
- **Workforce:** Employing around 90 skilled professionals.
- **Global Presence:**
 - Manufacturing unit for glass tubing in Dongguan, China. Once incorporated in Delaware, USA.
 -

Our Expertise

- Lab Tenders Materials
- School Projects School
- Science Kits
- Physics, Chemistry, and Biology Equipment Microscopes
- General Labware

We specialize in:

- Bidding and tendering for the Ministry of Education
- Bidding and tendering for the Ministry of Health

Our Mission

To provide high-quality lab equipment and educational materials to schools and institutions globally, ensuring the best in scientific education and research.

FACTS

- Customer first, our staff always give top priority to customer experience. A variety of payment terms to be chosen, T/T (bank transfer) normally for all the order.
- Fast delivery, we can delivery your order right away when the items in stock, we will proposal most suitable delivery way with it cost base on your order and discharge port. Our cooperated forwarder will dispatch your order in safety way.
- Professional engineers responsible for specialized products, they are trained in the factory for a long time professionals, to provide you with the best solutions and after-sales service.
- Long-term use of the product to verify its accuracy, must be rigorously tested before shipment to ensure that the product delivered to the customer can be successfully used.

SCOPE OF BUSINESS

Generally We supports all major fields of scientific / Lab endeavors essential to the progress of society. Star Labs provides general and specialized instruments form our own manufacturing units & form the top global brands as well.

ISO 9001:2015 CERTIFIED

Star Lab is AN ISO 9001:2015 Certified Company . We ensure to meet all the requirements of our clients.
